Resolution:-

4. The proposals of Mr.Lamb's Committee appear to proceed on the general principle that it takes a range of 9 to 10 acres of forest to supply the legitimate demands of one acre of supari or spice garden. They recommend accordingly--

(a) that in the case of gardens which have no beta assignments or for which the assignment is less than 4 acres, such further assignments should be made by the Forest Settlement Officer under the general control of the Collector as are needed to bring the total assignment for each garden upto the average of the village, subject to a minimum of 4 and a maximum of 6 acres of beta to one of garden;

Forest Concessions and Privileges in the Kanara District.

GOVERNMENT OF BOMBAY,
Agriculture and Forests Department.
Resolution No.3907.
Bombay Castle, 7th December 1950.

x x x

Resolution: Since the issue of revised orders, in 1948, in respect of forest concessions and privileges granted to the cultivators of the Kanara District, experience has shown that the concessions and privileges granted are in some cases inadequate and in others result in unnecessary loss to Government without corresponding material benefit to the cultivators. A sub-committee of the District Rural Development Board, Kanara, was, therefore, formed in May, 1950, to consider what modifications were necessary to the existing orders in the light of the experience gained and to make recommendations to Government. Government has carefully considered the recommendations of the sub-committee in consultation with the members of the Legislative Assembly and the Legislative Council from the Kanara District and the members of the sub-committee and has decided to revise the existing concessions and privileges in some respects. In order that the orders as now revised may be easily understood by all concerned, the revised concessions and privileges which will in future be enjoyed by the cultivators of the Kanara District, are stated below:-

x x x x

XIV. Betta and Hadi assignments.

In the below-ghat talukas, 4 acres of betta is required for each acre of garden land and two acres of betta for each acre of rice land. In the up-ghat taluka, 9 acres of betta is required for each acre of garden land. Assignments of bettas shall be made on the above scale as far as possible. Where bettas cannot be assigned near cultivations or habitations, they may be allotted in Kans and other forest areas as may be possible. Cultivators shall enjoy all the rights in the bettas as hitherto. All the rights in bettas will be enjoyed by the cultivators in Hadi lands also. Huts or permanent residential houses will be allowed to be erected on bettas if such permission is considered to be necessary for better sanitation and/or cultivation. All trees in the bettas excluding sandalwood, teak, sissum, ebony and halmaddi will be given free of royalty to the cultivators of garden lands for their own use as defined in rule 42 of the Forest Department Manual, Volume II.
